Most remember the horrendousness that was their first retail job. However the teenage Natalia has somehow ended up working at a mall that exclusively serves monsthers!

Now she must survive the horrors of the retail workplace with her new coworkers Grace, Arianna, and Ulfric, as well as her literally slimy boss Nigel Benedict Slimebottome Esq the Third, as well as deal with a customerbase full of surfer werewolves, hyperactive disco zombies and every monster inbetween.

From left to right: Arianna, Grace, Natalia, Ulfric, and Nigel

Episode shortlist:

Ep 1: Pilot. Nigel forces the Natalia and gang to try to sell possessed merchandise that insults their customers.

Ep 2: Nigel seems to be hiding something, and Natalia is determined to figure it out.

Ep 3: Nigel makes a deal with the three witches to 'lend' his employees for a day: the main trio go on a Shakespearean-themed adventure akin to 'a midsummer night's dream' to gather ingredients.

Ep 4: Arianna bargains for a magical potion that she is told will give her the voice of an amazing singer. What it does instead is make her only able to talk in singing animal noises.

Ep 5: Ulfric gets fleas and must shave all his fur, and attempts several different magical 'cures' to get back to normal with diverse results…

Ep 6: Greg from the Ghoulry shop, tries to get a moment of peace alone in the break room... with mixed results.

Ep 7: Natalia loses her usual ride with her sister when she gets new work hours, and Grace offers her own car… her own talking smart-aleck car who never stops their running commentary.

Ep 8: Grace gets crushed on by a 'werejerk,' a handsome man by day, but an uncontrollable jerk at night, and she falls for one half of him.

Ep 9: The monster zoo comes to town and everyone is ecstatic to go. Natalia tries to get a selfie with the animals, however these creatures are far more dangerous than expected.

Ep 10: Natalia looks for a unique birthday gift for her dad, and ends up buying a haunted toaster that she must catch before it causes chaos around the house.

Ep 11: Frustrated with Arianna's indifference, Nigel seeks help getting his employees' respect.
