Growing up is never easy, much less so when your own organs manifest themselves in your life. Annie Bodye must now cope with an emotional heart, overbearing brain, and other organs as they wreak havoc on her with their “organ-ization.”

Sample Episodes:

Road Trap
The Bodye family goes on a trip to Wacky Water Super Doodle Poodle Noodle Fun Land for a day trip only to be met with Ophelia’s arch enemy: traffic. The family – and the organs – go stir crazy.

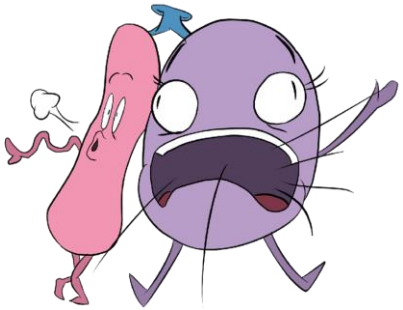

The Feels
Brain is frozen and Heart swells uncontrollably; Lungs can’t catch their breath, and Stomach spews butterflies. The culprit? Annie’s first crush. The solution? They have no idea…

Not Just Annie Birthday
After Annie’s birthday gets cancelled due to her parents’ busy schedules, Brain decides to throw her the birthday party she deserves! …Easier said than done when Heart won’t be outbeat. Competition just runs through his veins.
